

Amit Niraj Gond

B.TECH 3RD YEAR | DATA ANALYTICS & FULL STACK WEB DEVELOPER

✉ gond35889@gmail.com | ☎ +91 9175157734 | 🌐 [Portfolio](#)

Objective

Seeking a role in data analytics and full-stack web development where I can utilize my expertise in AI, machine learning, data processing, and software development to contribute effectively to projects and business growth.

Education

Bachelor of Technology (B.Tech)
Specialization: Computer Science | 3rd Year
Nagpur University

Projects

1. Enhance Learning Platform
 - Developed an educational website offering features like question generation, books, mock tests, and articles in multiple languages.
 - Implemented Python for AI-based question generation and React for an interactive UI.
 - Integrated MongoDB and Express for a robust backend.
2. Weather App
 - Created a weather application that fetches real-time data using JavaScript and APIs.
 - Displayed temperature, humidity, and weather conditions dynamically.
3. Student Attendance Management System
 - Developed a web-based system to manage student attendance efficiently.
 - Implemented real-time tracking and report generation.
 - Used MERN stack to create a scalable and interactive application.

Skills & abilities

- **Programming Languages:** Python, C++, C, Java (basic)
- **Data Analytics Tools:** Pandas, NumPy, Excel
- **Machine Learning:** Scikit-Learn, TensorFlow
- **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, JavaScript
- **Mobile Development:** Android (Java, Kotlin)
- **Frameworks:** Flask, Django
-
